**Subject:** ISU Sorghum Seed HPS5500

Joe,

Sorghum Seed from ISU (Hybrid HPS5500) was shipped yesterday and should be arriving by 4:30 this afternoon. The seed has been treated with concep, apron, and maxim. Laboratory germ is 76%. I have sent 14kg of seed, at 3.32 g / 100 seeds. Just let me know if you have any questions.

All the Best,

**Joshua Kemp**, *Research Scientist I*
